

Guess What? We're Pregnant!

OUR DUE DATE

Our due date is October 4th. We plan to have the baby here in Castellón, Spain. We've had two doctor's visits already at the local medical clinic and are happy to say we have a healthy, growing baby!

April is in week 15 of her pregnancy. So far she's had a normal pregnancy, complete with food cravings (lots of mashed potatoes), morning sickness (but usually in the afternoons) and tiredness. She's hoping to complete her Masters thesis this summer and spend the rest of her time resting at the beach taking advantage of the fact that resting is what pregnant women do!

OUR FURLOUGH

Once the baby is born, April has recovered, and we have our little American baby passport, we plan to return to Iowa around Christmas time to see family and friends and spend some time visiting our church families there.

With a new member of the family and others eventually on the way, we will also need to raise more monthly support to continue our work starting churches with CAI in Spain.

OUR MOVE

Our other big news is we plan to move back to Madrid after our furlough, so probably in March of 2007, to begin working with CAI's newest church plant, Oasis Madrid. We've had a productive year here in Castellón with Kelly working in Communications for Christian Associates and April completing her Masters, and are excited about how God will use our experiences from this year to impact Madrid in the future.

We look forward to telling you more in the next few months about the vision of Oasis Madrid, and as always, we are thankful for the community that consistently surrounds us through all the changes of life!

PRAYER REQUESTS

- a healthy pregnancy
- preparation for being new parents
- energy for April to write her thesis this summer while she's pregnant.
- direction on how to best use our experiences from this year in Madrid next year.
- small Theology conference meeting at our home in May.
- thanks for good trip in April to help CAI church in Münster, Germany.

Blessings,

Kelly + April Crull
