

Unplowed Ground

Alan and Debrah Hirsch our keynote speakers

We introduce to you Alan and Debrah Hirsch, keynote speakers at Christian Associates Staff Conference 2006 in Holland, which ended last week. Alan and Debrah hail from Melbourne, Australia. They work with FORGE, a mission training agency.

We were challenged by Alan and Debrah as they talked about planting missional churches. As we think about returning to Madrid and exploring ways our church can serve the city of Madrid, we were inspired and convicted to start with Christ first, to listen to what He has to say about our unique contribution in Madrid, and begin to build from there.

Godly Play a children's curriculum

April had the opportunity to lead one of the conference seminars, introducing our staff to a children's curriculum called Godly Play. Sarah Cousings from Mountainview Church in Madrid demonstrated the curriculum with the adults while April explained the process and answered questions.

Godly Play is particularly beneficial for church plants because it's used extensively in a variety of countries and contexts. It's adaptable for groups ranging in size from 2 to 200, for mixed age groups, and for bi-lingual settings.

Creative Worship practical ideas for young churches

Kelly also led a conference seminar. He worked with worship leaders to find practical and creative solutions to doing worship in young churches, where resources and people are limited. They explored worship forms such as liturgy, storytelling, meditation, prayer, photography and others.

Blessings,

Kelly, April and the little one

Prayer Requests

- for the whole fam as we enter month 8 of our pregnancy.
- for Oasis Madrid church as they look for ways to serve the city of Madrid.
- for time to finish last church websites by the end of August.
- for April as she writes her Masters thesis before the baby is born.
